The screenshot shows the Thunder Client application interface. At the top, there's a menu bar with File, Edit, Selection, View, Go, Run, and a search icon. Below the menu, the main window is titled 'Thunder Client'. On the left sidebar, there's a 'New Request' button and a list of recent requests. The main area shows a 'New Request' configuration for a POST method to 'http://localhost:4000/accounts/reset-password'. The 'Body' tab is selected, showing a JSON payload. The 'Response' tab is also visible, showing a '200 OK' status and a JSON response with a token and password confirmation. The bottom status bar shows the request was successful.

The screenshot displays the Thunder Client interface. At the top, the menu bar includes File, Edit, Selection, View, Go, Run, and a search icon. The main window is titled 'api-prelim'. Below the menu, there's a toolbar with icons for file operations and a 'Thunder Client' button. The 'New Request' dialog is open, showing a PUT request to 'http://localhost:4000/accounts/1'. The 'Send' button is highlighted. The 'Activity' tab is selected, showing a list of recent requests. The 'Body' tab is active, displaying the JSON content of the response. The response status is '200 OK' with a size of '194 Bytes' and a time of '167 ms'. The response body is a JSON object with fields: id, title, firstName, lastName, email, role, created, updated, and isVerified.

The screenshot displays the Thunder Client interface. On the left, a sidebar shows a list of requests, with the first one, 'POST localhost:4000/...', selected. The main panel is titled 'New Request' and shows a POST request to 'http://localhost:4000/accounts/refresh-token'. The 'Query' tab is active, showing 'Query Parameters' with a table for parameters. The right panel shows the 'Response' tab with a JSON object representing a user profile. The status is '200 OK', size is '0 Bytes', and time is '163 ms'.

Thunder Client interface showing a REST client request and its response.

Request:

- Method: POST
- URL: http://localhost:4000/accounts/refresh-token
- Tab: Query
- Query Parameters: (Empty table)

Response:

```
